Income-related inequalities in oral health are greater than any other social inequalities in all areas of health.

1 in every 3 lower-income or youth experiencing homelessness does not have proper access to basic oral hygiene products such as toothbrushes or toothpastes.

That's where we come in!

At **TorontoTooth** our mission is to help Toronto youth experiencing homelessness by making **basic dental care more accessible**. We plan on doing so by supplying them with dental essentials such as toothbrushes and toothpaste as well as educating them on their oral health.

With your help, we can continue this providing this outreach and raise awareness of inequalities that they face.
